COMPANY PROFILE

Innovative Solutions. Practical Services. Sustainable Growth.

1. COMPANY OVERVIEW

Faltasi Innovations Limited is a Tanzanian company engaged in a diverse range of business activities, providing practical, reliable, and innovative solutions to individuals, businesses, organizations, and communities.

The company operates across Information and Communication Technology (ICT), software and systems development, Point-of-Sale (POS) solutions, ICT products and supplies, guest house and accommodation services, agency services, and cleaning services.

Faltasi Innovations Limited is committed to identifying practical opportunities, developing useful solutions, and delivering quality products and services that respond to the changing needs of its customers.

Through innovation, professionalism, strategic partnerships, and customer-focused service delivery, the company continues to pursue sustainable growth and expand its business operations.

2. FALTASI PHILOSOPHY — FALSAFA YA TANO SIFURI (50)

Faltasi is derived from the Swahili expression “Falsafa ya Tano Sifuri,” meaning Five Zero Philosophy. It is a life philosophy built around two stages: Life Before 50 and Life After 50.

Before 50, we believe in building: working hard, conducting business with integrity, remaining faithful to customers, pursuing quality, creating value, earning responsibly, and investing wisely. The objective is to turn income into assets and investments particularly property, businesses, and other productive assets that can generate long-term or passive income and create financial freedom.

After 50, we believe in enjoying the life we have worked to build. This means prioritizing health, exercise, good nutrition, family, travel, happiness, and meaningful experiences; enjoying the rewards of earlier investments; spending quality time with family and grandchildren; and supporting the next generation.

At the heart of the Faltasi Philosophy is community. We believe people achieve more when they work together, share opportunities, support one another, and help each other succeed. Faltasi is therefore more than a company or business identity it is a mindset built on hard work, integrity, quality, investment, family, health, enjoyment, and collective success.

**BEFORE 50 — BUILD. INVEST. PREPARE.
AFTER 50 — ENJOY. LIVE. GIVE BACK.
TOGETHER — WE RISE.**

3. OUR BUSINESS AREAS

ICT Solutions & Services

Faltasi Innovations Limited provides ICT solutions and professional technology services designed to help businesses and organizations improve their digital operations, productivity, communication, and efficiency. Our ICT activities include technology support, digital solutions, networking, systems implementation, and other technology-related services.

Software & Systems Development

We develop, implement, and support practical software and information systems that help businesses and organizations manage their operations more efficiently. Our focus is on developing solutions that address real business needs and improve productivity, management, reporting, and decision-making.

POS Systems

Faltasi Innovations Limited provides Point-of-Sale (POS) systems designed to support sales management, business operations, transaction recording, reporting, and monitoring. Our POS solutions are intended to help businesses improve operational efficiency and gain better visibility of their daily activities.

ICT Products & Supplies

We supply a range of ICT products and equipment, including computers, networking equipment, accessories, peripherals, and other technology products. We work with established manufacturers and suppliers to help customers access appropriate technology products for their personal, business, and organizational needs.

Guest House & Accommodation Services

Faltasi Innovations Limited operates and manages guest houses and accommodation facilities in different locations across Tanzania. Our accommodation services are designed to provide comfortable, affordable, clean, and reliable places to stay for travelers, professionals, families, and other guests. We focus on guest satisfaction, cleanliness, hospitality, comfort, and convenient accommodation services, while continuously seeking opportunities to expand our hospitality operations across the country.

Agency Services

Faltasi Innovations Limited engages in agency and business representation activities, connecting customers, businesses, service providers, and partners. Our agency activities support effective coordination, communication, and business opportunities across different sectors.

Cleaning & Environmental Services

We provide household, commercial, and environmental cleaning services with an emphasis on professionalism, reliability, cleanliness, and quality service delivery. Our goal is to provide clean, safe, and well-maintained environments for homes, businesses, and other clients.

4. OUR VISION

To build a trusted and innovative company that delivers practical solutions, quality services, and business opportunities that create lasting value for customers, businesses, and communities.

5. OUR MISSION

To provide reliable technology, hospitality, business, and professional services through innovation, quality service delivery, customer-focused solutions, and strong business relationships.

6. OUR CORE VALUES

Innovation — We embrace new ideas, technologies, and approaches that create better solutions.

Integrity — We conduct our business with honesty, transparency, accountability, and respect.

Customer Focus — We place our customers' needs and satisfaction at the center of our operations.

Quality — We are committed to delivering reliable, professional, and high-quality products and services.

Professionalism — We maintain high professional standards in the way we work, communicate, and serve our customers.

Partnership — We believe in building strong relationships with customers, suppliers, businesses, institutions, and international partners.

Growth — We continuously seek opportunities to expand, improve, and create greater value.
